

385

COMFORTABLE CRUISING HOME AND AWAY

CRUISING CATAMARAN

The 385 is our most popular model for long distance cruising and combines ease of handling with robust construction, modern hull form, quality craftsmanship and elegant joinery.

Designed for single or short-hand sailing and achieves this by combining a smaller mainsail and larger headsails with all lines led aft to the cockpit. All sail handling can be done without needing to venture away from the cockpit. The 385 is built to the highest level of European Recreational Craft Directive: Category A (Ocean) and is built using the highest standard materials.
