## CATAMARANS

*Pleasure of the sea...*

A10 Power test before delivery, Tunisia

## A word from the captain:

"According to the government's announcement, the third confinement will soon come to an end in France. On this occasion we will organize, at the end of June, open days in Canet en Roussillon. We will present our A34 model and our two new models, the Aventura 37 and the 14 Power. In the last few months our order book has filled up very quickly. In order to meet your demands we have decided to hire new collaborators who will take care of the manufacturing part in Bizerte. We hope to be able to open new availabilities for the year 2022 very soon. We are doing everything possible to increase our production and our network of resellers.

- Take care".

## ***WELCOME TO OUR NEW AVENTURA DISTRIBUTOR ON THE COSTA DEL SOL SPAIN***

Club Catamaran les Rivages has moved to the Port of Estepona, a few kilometers from Puerto Banus and Marbella, allowing AVENTURA to have an exclusive distributor of its range on the Costa Del Sol. For sailing enthusiasts, Club Catamaran Les Rivages also offers a new concept, TERRE & MER, allowing its members who buy a property in Spain to benefit from the exclusive use of an AVENTURA 37 catamaran, with a concierge service, to enjoy sailing trips, without the worries of managing the boat, berth, insurance, etc... and with a professional skipper at their disposal

# THIS MONTH'S A34 DELIVERIES

*FRANCE, MEXICO, ITALY*

After a visit to Tunisia and Canet-en-Roussillon, our dealer in Charente-Maritime, Nautiques Services, has received this magnificent Aventura 34.

Here are some words from our dealer in La Rochelle:

"Arrival of a very seaworthy boat with beautiful finishes. Quality, safety and performance are the terms that define very well this sublime catamaran. Aventura Catamarans combines efficiency and reliability for sailing with family, friends or alone in complete safety. This boat is available with a skipper for those who wish to try it out."

Don't hesitate to contact us to try our superb A34 in La Rochelle, France.

Every month we deliver boats all over the world. Two more Aventura 34 joined their happy owners this month in the waters of Mexico and Italy.

# SEA TESTS

*All our boats are tested before being delivered to you.*

## QUALITY

Our top priority is to provide catamarans of the highest quality, ISO and epoxy resins, waterproof woods, A4 316 ISI stainless steel, Harken and Spinlock fittings, Elvström wardrobe, ZSpars rigging, Raymarine electronics, etc... are the quality standards of Aventura catamarans. Aventura catamarans are our history, they are built to last.

## SECURITY

Because safety at sea is not an option, we build marine catamarans. Designed, developed and tested by offshore sailors, our top priority is to offer safe catamarans in all weather conditions. Aventura's oversized standard equipment offers efficiency and reliability for safe sailing with family, friends and solo sailors.

## PERFORMANCES

The recipe is simple: stepped hulls, low weight, balance, ergonomics, generous wardrobe and engines, top-of-the-range fittings, return of manoeuvres to the helm, make Aventura catamarans high-performance boats in all circumstances.

## A SEA TRIAL

*What is it for?*

All our boats are tested before being delivered to their owners. A sea test is crucial and consists of a final check of all the aspects of the catamaran that cannot be fully realized on land (motorization, electronics, fittings, sail adjustments, internal and safety equipment). We do these tests in the port of Menzel Bourguiba as well as on the big lake of Bizerte which will allow us to provide you with a high quality product.

# COMING SOON...

## *Light on our new model*

### AVENTURA 37 D-CHARTER

Following a strong demand from professional customers we have developed a D-charter version that can accommodate up to 28 people. Already 7 units have been sold.

DON'T MISS IT

# THE NEWS

## Aventura Catamarans

### PRIVATE BOAT SHOW : END OF JUNE 2021

*\*these dates are subject to change*

We are pleased to invite you to our open house which should take place at the end of June 2021 in Canet en Roussillon at our dealer; Holiday's Boat. These dates are subject to change due to a delay from our suppliers on the delivery of raw materials.

Three of our boats will be on display: the A34 and the two latest models, the A37 and the A14 POWER.

This event aims to gather our customers and partners and share a convivial moment.

We will communicate you very soon the precise dates of the upcoming shows on our website and our social networks. Follow us on our social networks!

# NOVALUXE

• SOLAR ELECTRIC YACHTS •

### NEW PARTNERSHIP

We have recently partnered with NOVALUXE Yachts, an American company that builds hybrid electric yachts, to study the use of electric engines on board our catamarans. They also refit second-hand catamarans with conventional engines.

If you are interested do not hesitate to contact us.
