

MULTIHULL NEWS 02/2021

McConnaghy 52 available for first sea trials on the Med. with cat sale

Dear Multihullers,

News in times of the ongoing pandemic:

Our lives are still definitely different from Covid-19, we set ourselves apart and find each other in the pandemic. The world holds its breath and we come to terms with global uncertainty for another year. Shipyards are closing the production halls, delivery dates and travel plans are bursting, ports are sealing themselves off, yachtsmen and dropouts are anchoring in Quarantine Roads. Planning for the upcoming sailing season is uncertain. The shipyards represented by cat sale have filled their order books for years. The demand for suitable multihulls, whether for comfortable life on board in the oceans or vacation trips on the marginal seas that can be planned, is greater than ever. Thanks to forward-looking planning and good management, delays on production works and deliveries rarely occurred so far.

NEWS from the shipyards:

Due to the successful market situation, the OUTREMER shipyard in January 2021 decided to market and sell its catamarans directly. After 23 years of trusting and successful cooperation and 36 handed over OUTREMER catamarans of all designs between 40' and 64' produced to date, cat sale as OUTREMER distributor and representative signs off. Looking back on exciting developments, jointly accomplished tasks in the construction and the successful representation of the OUTREMER catamarans, we stay connected and say: *"Au revoir & auf Wiedersehen"*.

In the segment of 45'+ Ocean going performance catamarans, we have now officially taken over the representation of the **McConaghy** shipyard in German-speaking Europe, as we have been well networked and connected in trust for years. We are enthusiastic and confident that we can offer McConaghy designs, which have so far hardly been represented in Europe, as a competitive asset to the EU multihull market and give our customers dedicated and knowledgeable advice on their selection. From now on we are your consultant for the innovative multihull designs of the Australian / Chinese McConaghy shipyard, which manufactures high-performance multihulls from 52' - 68' in the high-end segment.

Restructured, this time brings us new tasks and incentives in our dedicated endeavour to serve our customers with the best multihulls. In contemplation, the view of familiar life is sharpened, and new decisions and innovations are possible. After three decades as a multihull broker and shipyard agency, cat sale offers an excellent selection of the best owner-oriented performance multihulls for long journeys. We advise you personally and comprehensively on your way on board. With experience and commitment, we help to find the ocean-going yacht that meets your requirements, for a safe life on board in the oceans and to define it in detail according to your wishes. Networked with the sailors, shipyards, designers and constructors of the multihulls, we work with passion for you.

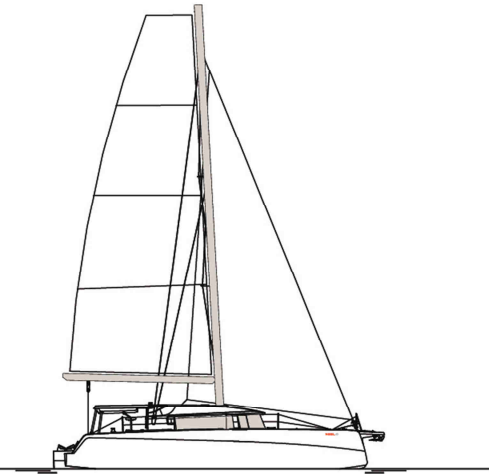

NEW Sunreef ECO-Line for a most comfortable life aboard in autarky now 4sale at cat sale

„New kid on the ocean“ - NEEL 43 / NEW 2021

After the last already legendary NEEL 45 Design was delivered in 2019, the shipyard follows up and presents a convincing, fresh little sister, the NEEL 43.

loa. 12,80 m / woa. 7,40 m / draught 1,50 m / Engine: Volvo 47 HP + sail drive
Architect Marc Lombard Yacht Design Group

Due to the innovative overall concept and the outstanding sailing ability, we are enthusiastic about the NEEL trimarans, which are now widely recognized for design, performance and innovation as * BestBoat USA * / * EUROPEAN YACHT OF THE YEAR 2019 * / * Multihull of the Year 2019 *, internationally recognized and awarded. cat sale has represented NEEL Trimarans / La Rochelle since the production began in 2010. Where, thanks to the collaboration of internationally renowned multihull designers, Michel Joubert & Bernard Nivelt, Eric Bruneel and Marc Lombard, the highly innovative NEEL trimaran designs are created. The innovative NEEL concept combines exceptional spacious and comfortable living space above three hulls with the esprit and sailing fun of any performance Monohull.

The innovative development of the NEEL trimaran concept continues this year with the now smallest, fresh NEEL 43 design. The first 27 production slots booked at the boot Düsseldorf in January 2020, on plans, have been confirmed and the production is running reliably on time. We offered the first sailing test on board the NEEL 43 N ° 1 in La Rochelle in March, that convinced us of the NEEL typical sailing performance and the liveliness of this nimble 43' Trimaran with again the most successful open loft concept.

New developments and new designs below € 250.000,--

Broadblue 346 discovering the oceans in fresh lines, now 4sale at cat sale

The Broadblue 346 class A cruising cat , designed by Darren Newton / Dazcat-design, is built in Szczecin / Poland and combines latest design lines with English style and well-founded Polish boatbuilding. With a total length of just 10.2m, this catamaran offers excellent sailing performance. Designed for a maximum of six people in two double cabins aft and two single cabins in the bows, the interior is extremely voluminous and comfortable. Class-A certified for Ocean cruising, as well as, due to its compact width, suitable for inland areas and lock passages, this catamaran offers enormous potential for use.

RAPIER 400 Performance Line by Broadblue, an open concept

The RAPIER 400 design has all the attributes of the classy open bridged deck catamaran. Slim hulls, above-average width and ample sail area, combined with a light, stiff sandwich construction guarantee outstanding sailing performance and remarkable sea-worthiness.

AVENTURA 37 World-premiere in June 2021 with cat sale

AVENTURA 34 / 37 (NEW 2020) / 44 / Power 10 / 14 (NEW 2021) / Tunisia

AVENTURA catamarans from Tunisia offer solid boat construction and modern LASTA-design, at a very fair price. From the 20' open bridge deck cat to the AVENTURA 44' Ocean-Cruiser and latest AVENTURA 14 POWER design, this medium-sized shipyard, for more than two decades, developed well under the management of the founder Eric Roger. In 2021, the latest AVENTURA 37 model was launched following the AVENTURA 34 nominated *** EUROPEAN YACHT OF THE YEAR 2019 ***. We are planning the world premiere at the AVENTURA service point in Canet en Roussillon in June 2021.

Superb Multihulls pre-owned:

When your decision is clear, to start your life on board, your budget and routing-plan is scheduled, cat sale offers a large selection of sound multihulls. After just an Atlantic-circle, or several circumnavigations and passage around the capes of the Southern Oceans, we offer safe and seaworthy multihulls for a comfortable life aboard for any budget.
